OBJECTIVE

Results-driven software developer with experience in front-end development looking to leverage problem solving skills, coding proficiency, and a strong teamwork mindset to build scalable and innovative solutions.

EXPERIENCE

React-JS Intern NamasteDev

Jan 2025 - Mar 2025

- Developed and optimized dynamic web applications, including NetflixGPT, TastyByte, a personal portfolio, and an educational blog website, using React JS, JavaScript, HTML, CSS, Tailwind CSS, and Bootstrap.
- Implemented responsive UI components, state management, and API integrations to enhance user experience and functionality.
- Improved performance and accessibility, following best practices in front-end development.

PROJECTS

NetflixGPT (ReactJS, JavaScript, Google Firebase, HTML, CSS, Tailwind CSS)

[GitHub](#)

- Designed and developed a Netflix-inspired web application with an AI-powered search feature that leverages GPT technology to provide intelligent movie recommendations.
- Integrated API-based search functionality to fetch and display relevant movie suggestions dynamically.
- Deployed the application on Google Firebase for seamless hosting, scalability, and real-time database management.

TastyByte (ReactJS, JavaScript, HTML, CSS, Tailwind CSS)

[GitHub](#)

- Developed a restaurant-based web application that fetches real-time data from Swiggy APIs, replicating core functionalities like menu display, search, and restaurant listings.
- Implemented state management using the Context API and Redux, optimizing performance and scalability.
- Designed an intuitive user interface with Tailwind CSS, ensuring responsiveness and seamless user experience.

CERTIFICATIONS

NPTEL - Database Management System

EDUCATION

B. Tech in IT, Acropolis Institute of Technology and Research, Indore CGPA: 7.28

Expected Jun 2025

12th, St. Umar Higher Secondary School, Indore Percentage: 86.4

Jun 2020 - Apr 2021

10th, St. Umar Higher Secondary School, Indore Percentage: 87.6

Jun 2018 - Apr 2019

SKILLS

Programming Languages

C++

Web Technologies

React JS, JavaScript, Tailwind CSS, HTML, CSS, Bootstrap

Database

MySQL, Google Firebase

Tools/Platform

Git, GitHub

Core Knowledge

DBMS, Computer Networks, OOPs

Soft Skills

Team Player, Adaptable
