## OBJECTIVE

Results-driven software developer with experience in front-end development looking to leverage problem solving skills, coding proficiency, and a strong teamwork mindset to build scalable and innovative solutions.

## EXPERIENCE

**React-JS Trainee**                                                                                      Jan 2025 - Mar 2025
**NamasteDev**

- Gained hands-on experience with React JS, Redux Toolkit, and API integration by following best practices
- Developed and optimized dynamic web applications, including NetflixGPT, TastyByte, and personal Portfolio
- Implemented responsive UI components with Tailwind, handled state management, and API integrations.

## PROJECTS

**NetflixGPT** (ReactJS, Redux Toolkit, Firebase, TMDB API, Cohere AI, Tailwind CSS)                    [Live App](#)

- Developed a Netflix-inspired web app and used Cohere AI for movie recommendations from user prompts.
- Implemented secure user authentication (login/signup) using Google Firebase.
- Integrated The Movie Database (TMDB) API to fetch and display dynamic and real-time movie data.

**TastyByte** (ReactJS, Redux Toolkit, Swiggy API, JavaScript, Tailwind CSS)                              [GitHub](#)

- Developed a restaurant-based web application that fetches real-time data from Swiggy APIs.
- Implemented state management using Redux, optimizing performance and scalability.
- Designed an intuitive user interface with Tailwind CSS, ensuring responsiveness and seamless user experience.

## CERTIFICATIONS

**NPTEL - Database Management System**                                                            [(View Certificate)](#)
**NPTEL - Computer Networks**                                                                     [(View Certificate)](#)

## EDUCATION

**B. Tech in IT, Acropolis Institute of Technology and Research, Indore**                        Expected Jun 2025
CGPA: 7.42

**12th, St. Umar Higher Secondary School, Indore**                                            Jun 2020 - Apr 2021
Percentage: 86.4

**10th, St. Umar Higher Secondary School, Indore**                                            Jun 2018 - Apr 2019
Percentage: 87.6

## SKILLS

| | |
|---|---|
| **Programming Languages** | C++ |
| **Tools/Technologies** | React JS, Redux Toolkit, JavaScript, Tailwind CSS, Bootstrap |
| **Database** | MySQL, Google Firebase |
| **Platform** | Git, GitHub, VS-Code |
| **Core Knowledge** | DBMS, Computer Networks, OOPM |
| **Soft Skills** | Team Player, Adaptable |
