OBJECTIVE

Self-motivated aspiring software developer aiming to contribute to the IT industry by utilizing my skills in development, problem-solving, and teamwork to create impactful solutions while growing within a dynamic environment.

EXPERIENCE

Front-end Developer — Jun 2022 - Jul 2022
Raise Digital

- Gained hands-on expertise in HTML, CSS, Bootstrap, and JavaScript by building a my portfolio, a D-Amazon, and an educational blog website.

PROJECTS

BlockHealth (HTML, CSS, Bootstrap, JS, Solidity, Web3 JS, MetaMask) — GitHub

- Engineered a decentralized healthcare management system on Ethereum blockchain, utilizing Solidity smart contracts for secure and immutable patient data storage, used MetaMask for authentication and transactions, and a responsive user interface designed with HTML, CSS, Bootstrap, and JavaScript to enhance accessibility.

Sorting Algorithm Visualizer (HTML, CSS, JS, Arrays) — Live Project

- Built and deployed an interactive web application to visualize different sorting algorithms, enabling dynamic user input for customizable arrays and leveraging JavaScript for algorithm logic, and smooth real-time visual transitions.

Network Packet Sniffer (Python, Scapy, SQLite3, Flask) — GitHub

- Created a real-time network packet sniffing tool using Scapy for multi-layer packet capture and analysis, integrated with SQLite for data storage, and implemented filtering for protocols like TCP, UDP, and HTTP.
